Curriculum Vitae

Your academic curriculum vitae serves to present your personal profile. It helps the Parkinson Foundation's reviewers and committees in conducting their review and evaluation of your academic achievements and qualifications. All details below are required unless stated otherwise. The CV must not exceed four pages. Please retain the template formatting. Font should not be smaller than Arial 11 pt, line spacing no less than 1.2. No photograph should be attached. Please name the file: CV_PubList_[Last name]. Please remove all instructional text (shown in italics) after completing the CV.

Personal Data

Field	Details
Title	
First name	
Last name	
Current position	*If on a fixed-term contract, please state the end date.*
Current institution(s) / site(s), country	
Identifiers / ORCID ID	*Applicants with an ORCID ID are asked to provide it. Creating an ORCID ID is recommended but not mandatory.*

Qualifications and Career

Please list the stages of your (academic) career including qualification phases. Please indicate position, institution and duration in each case. If you are currently pursuing a doctorate, please indicate the current status of your doctoral studies.

Stage	Period and Details
School, country	*Required only if relevant to eligibility; please provide detailed information if school years were spent abroad.*
Degree programme	*Subject, period, place, country (including changes*

	in subject area, if applicable)
Doctorate	*Date, supervisors/mentors, subject (optional), institution(s), country*
Stages of academic/professional career *(optional after doctorate)*	*Activities relevant to the proposal listed in reverse chronological order (most recent first): period, position, institution; e.g. research stays, post-doctoral lecturing qualification, clinical activities, industrial research, voluntary activities, etc.*

Supplementary Career Information *(optional, free text)*

You may voluntarily enter supplementary information relating to your career or special personal circumstances if you feel this information is relevant to the appropriate review and evaluation of your academic achievements.

Recognised interruptions include, for example: childcare responsibilities, parental leave, chronic or long-term illness, disability, particular family obligations (e.g. caring for relatives), pandemic-related downtime, as well as delays related to being a first-generation academic, compulsory or voluntary service, language acquisition, migration or asylum procedures.

Biographical peculiarities or unavoidable delays (of at least 2–3 months per year) can thus be appropriately taken into account in your favour as part of the review.

Activities in the Research System *(optional, free text)*

Here you may provide information on further activities within the research system, such as committee involvement, academic self-governance, organisation of academic events, teaching and mentoring activities.

[Free text – please enter here]

Supervision of Researchers in Early Career Phases *(optional, free text)*

Please provide information on the supervision of researchers in early career phases in the last five years: a list of supervised doctoral researchers with details of the subject of dissertation, time to degree, and – where possible – subsequent career path.

Scientific Results

Please indicate here your most important published scientific results. If available, please provide persistent identifiers (e.g. DOI). Open access publications should be designated accordingly. Details of quantitative metrics such as impact factors and h-indices are not required and will not be considered in the review. Please also explain, where possible, your contribution to the published findings.

Category A – Articles in peer-reviewed journals, contributions to peer-reviewed conferences or anthology volumes, and book publications

(Required, numbered, maximum 10 entries)

1. [Text – please enter here, maximum 10 entries]

Category B – Any other form of published results

(Optional, numbered, maximum 10 entries)

This may include contributions to non-peer-reviewed conferences, preprint articles, datasets, clinical trial protocols, software packages, patents, blog contributions, infrastructures, science communication.

1. [Text – please enter here, maximum 10 entries]

Academic Distinctions *(optional, free text)*

Here you may enter details of any distinctions or awards you have received, including invitations or appointments to prominent bodies or academies.

[Free text – please enter here]

Other Information *(optional, free text)*

Here you may refer to further points that characterise you as a researcher, or mention other aspects relevant to the review or evaluation of the proposal.
